# Axis Honeycomb

Bring your dream room to life with Axis Honeycomb shade made and installed to your exact requirements.

In just a few easy steps you can transform your window into a stylish, energy efficient space to enjoy all year round.

Sophisticated, functional & energy efficient. Perfect for any size or shape window, Axis Honeycomb offers insulating properties to control room temperature without compromising on style.

- A variety of fabric opacities and design options, cater to individual needs for light control and privacy.
- Energy efficient, tested and proven to help save on your energy costs, better for your pocket and the environment.

- Child and pet safe. Go for one of our cord free control options such as Cordless, Lift & Lock or Momenta, for the ultimate child safe solution.
- With smart construction, specially designed with Perma-Cell technology preventing stretching, cells remain looking and performing at their best.
- The compact headrail delivers minimal light gaps, as low as 2.5mm in recess fit, compared to 10-15mm for most roller blinds.
- Advanced operation allows versatile solutions ofr every space or shape, This includes skylights, so every use is an effortless experience.
- Sound energy is absorbed within the cell, dulling exterior noise by up to 55% with 20mm Translucent Fabric.
- Fabrics are anti-static and dust repellent making them low maintenace and helping to create healthier indoor air.
- Axis Honeycomb shades are Greenguard certified for healthier indoor air quality.

# Axis Honeycomb

Enjoy warmer winters and cooler summers as Axis Honeycomb slows down heat transfer through the window for year round comfort.

The back of all Axis Honeycomb fabrics is white, creating a uniform streetside appearance.

The white backing also provides light reflection and UV protection which reduces heat passing through the shade into the room.

Axis Honeycomb Shades have been tested and proven to help reduce the cost<sup>+</sup> of heating your home.

## MEDIUM

Up to 17% in energy savings with Harlem 10mm Single Cell Translucent fabric.

## Child Safety

With child safety an important consideration, you can put your mind at ease knowing there are a variety of solutions

For the ultimate child safe solution select a cordless operating system such as our Cordless, Lift & Lock or Momenta systems which feature no loose operating cords.

### Child Safety Tips

Make it safety first around your windows by always ensuring:

- Items that a child could climb on are away from windows that have cords or chains. This also includes placing cots, beds and chairs away from windows.
- Cords are secured as installed by looping around the cord cleat at all times.

Corded window coverings come with child safety operation warning tags and safety cord cleats for holding operating cords.

## Choose your Fabric Opacity

### Sheer

Gently filter light while still enjoying the view through the windows.

### Translucent

Soften harsh light while maintaining privacy and protecting your furnishings from UV fading.

### Blockout

Provide excellent energy efficiency and ultimate light and privacy control.

## Choose your Cell Size

### 10mm Single Cell

Compact air pocket with classic narrow projection, saving you up to 28%\* on your heating costs.

### 20mm Single Cell

Larger cell for greater energy efficiency with up to 32%\* savings on your heating costs.

### Double Cell

Save up to 26%\* on your heating costs with a unique styling of a side-by-side double cell shade.

# Axis Honeycomb

## Choose your control option

Start by selecting your operating system which controls the raising and lowering of the shades.

### Classic Cord Lock

Slimline hardware for an unobtrusive appearance when shade is fully raised. Operational cords are neatly secured by cleats.

### EasyRise

Featuring a continuous cord loop operation with a geared clutch, the EasyRise system offers smooth operation for lifting even the largest shades.

## Child Safety

Consider a cordless option for a child and pet safe solution.

### Lift & Lock

A patented cordless system that locks the shade into position. Operated by a designer bottomrail with easy levelling adjustment.

### Motorised

A motorised control system allowing shades to be operated with a touch of a button.

## Choose your design option

Depending on where your blind will be installed, you can choose a design option that's perfect for your needs.

### Day-Night Blinds

Enjoy the best of both worlds when combining a sheer and blockout fabric on the one shade.

### Two-on-One Headrail

For larger windows, patio doors or window/door combinations, two separate blinds can be mounted on the one head rail, with each blind able to be lowered and raised independently.

### Top down/Bottom up

Allows the shade to be raised from the bottom as well as lowered from the top, for complete light and privacy control.
