Marine Blinds

Norfolk Marine is part of the well respected Norfolk Blind manufacturing company, with over 30 years experience in quality blind manufacture your confidence is assured.

With a focus on product development, our marine blinds use cutting edge materials and technology to provide the latest in efficient and cost effective solutions.

Our comprehensive range of marine blind and screen solutions include roller blinds and anti-glare screens for both accommodation and bridge/navigation areas of the ship.

The Norfolk Marine range of antiglare roller screens is backed by full after-sales support and comes with the confidence of full DNV approval for anti-glare sunscreen blinds.

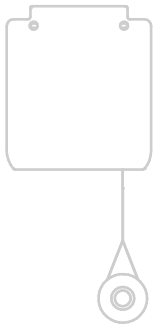

Being fully custom-made we can provide a solution to suit any requirement and budget while catering for both aesthetic and functional considerations.
